APEC High Level Meeting on Quality Infrastructure in Tokyo

As a follow up of the 'APEC Connectivity Blueprint for 2015-2025', it aims to share good practices and lessons learned in infrastructure projects and enhance understanding on "quality infrastructure investment" from both institutional and technical perspectives among high level officials in charge of infrastructure.

Date: 17-18 October 2017 (2 days)

Venue: Grand Prince Hotel New Takanawa, Tokyo, Japan

Participant: Two participants from each APEC economy, including director-general or permanent secretary level participant from ministries in charge of infrastructure

Day1: Meeting

- ✓ Opening Remarks and Keynote Speeches
- ✓ Exhibition Tour (Exhibition for Infrastructure cases)
- ✓ Presentations from Participants for QII elements, challenges and good practices
- ✓ Public-Private Dialogue
- ✓ Reception with Private Sectors

Day2: Infrastructure Tour

- ✓ Visiting a construction machinery company to understand ICT based Construction Technology including test ride
- ✓ Visiting an exhibition facility to see and experience future life and society
- ✓ Visiting a facility of Transit Oriented Development (TOD)
