Economic Cooperation**

---

**2016/SOM3/EPWG/010**

Agenda Item: 10.3

## **Supply Chain Resilience Update**

Purpose: Information  
Submitted by: United States

**10<sup>th</sup> Emergency Preparedness Working Group  
Meeting  
Lima, Peru  
15-16 August 2016**

## Supply Chain Resilience Update

United States: Emily Fischer

## APEC Seven Principles of Supply Chain Resilience

1. Share information and knowledge to promote supply chain resilience.
2. Promote disaster risk management and hazard mapping to better understand potential risks to supply chain resilience.
3. Support planning and business continuity management to improve global supply chain resilience.
4. Promote best practice policy, regulations, and flexibility to enable global supply chain resilience.
5. Leverage regional cooperation to support the supply chain, including coordination with other multinational organizations working on supply chain resilience inside and outside the APEC region.
6. Promote critical infrastructure protection and inter-modalism as a key component of supply chain resilience.
7. Recognize and promote best practice in human resource and capacity management in the context of supply chain resilience.

## Five Year Plan (2013-2017)

- Each year, focus on one Principle for ALL the APEC Economies
- Each year, focus on one developing Economy regarding ALL Principles

## Promote One Principle Each Year

- Best practices
- Intense workshop with multiple participants from each participating economy
- Cooperation between government, business, NGOs, international organizations
  - 2015 = Hazard & risk mapping of supply chains
  - Peru, May 4 – 6, 2015

**2016 = Resilient Responders**  
**Bangkok, September 26 – 27**

## Resilient Responder Workshop

- Bangkok, Thailand
- September 26 – 27
- Resilience for
  - Individuals: public safety and emergency management
  - Organizations: companies, NGO's and government agencies
  - Leaders: how taking care of yourself helps your organization
- **Registration is still open: up to two from each Economy + private sector – Sign up now!**

## Focus on One Developing Economy Each Year

- Each year, develop an Action Plan for Supply Chain Resilience for one of the APEC economies
  - Establish a Steering Committee to work with APEC team to develop the workshop and encourage and guide follow-on activities
  - Involve partners (e.g. national & local governments, NGO's, USAID, companies)
  - Conduct a workshop
  - Facilitate discussions
  - Jointly develop an Action Plan
  - Implement the Action Plan
- 2015 = the Philippines
- **2016 = Vietnam: October 26 - 28**

## Pending Concept Note

- Principle: Promote best practice policy, regulations, and flexibility to enable global supply chain resilience
- One Developing Economy for focused effort and economy-specific workshop
- Continued technical support as needed and available for Philippines and Vietnam

## Working Together to Improve Supply Chain Resilience
